ISO
TC 184/SC4

Product Life Cycle Support (PLCS)

- Life Cycle (LCA) to clarify concepts in AAM
 - ✓ concept of and interaction between the two lifecycles
 - ✓ down-down-up-up view of design and product build
 - ✓ relationship of Management activities to "Doing" activities
- Industrial Structure used to illustrate sectors being targeted
- They expect the Data side of Framework to help with the overlaps between modules with other APs
